

ANNUAL FAMILY PARTY PROGRAM TO FEATURE NOTED HORSE

STATEMENT OF MOKENA VILL'GE BOARD MEMB'RS

Apparently there is some misunderstanding about the water and sewer project report, as published in the News-Bulletin on January 24, 1952. This report was published at the request of the village board, so that the people would know exactly what was discussed at the board meeting in order that you would be fully informed. Your board has not even had the opportunity to study the proposals to say nothing about reaching a recommendation. Obviously we all know that the village could not support a \$740,000.00 indebtedness much less finance such a large debt. Furthermore before any debt is incurred, the purpose and amount will be fully explained to the people and will be voted on by the people, not the village board. This was the first thing brought out at the board meeting after the engineers report was read.

The engineers were engaged, to continue their study of our water and sewer problems which they started some years ago, because of the conditions that prevail today and have prevailed for some time. If you have never attended a board meeting you have no idea how many complaints are received about raw sewage backing up in basements, flooded basements, flooded land, broken field tile and discolored and odored water coming out of home faucets. Also your board was recently petitioned by property owners on Carpenter street for a water line extension so that they could abolish their complex system of small lines running to the main some distance away and so that they may have adequate fire protection to which they are entitled. This is only one of many places that correction is needed.

The village does not have near enough water mains, large enough mains, or fire hydrants to supply the people enough water or to give them proper fire protection. The engineers report pointed out that the installation of the water extension project would result in reduced fire insurance rates of 25 to 30%. This is something to think about.

There are also certain conditions which can contaminate our water supply and which was reported to the board on August 12, 1950 by the Will County Health Department. These conditions must be corrected to assure the people of safe water. Your present board is working with the Will County Health Department on this matter and hope to have it corrected in the near future.

These are just some of the problems that face your board. At the same time your board is especially tax conscious. It voted not to increase the village tax rate by 10% as provided by law and as so many villages did, simply because we are mindful of the increase in the cost of living and increase in taxes. Neither did we increase the automobile license. If your taxes do increase it is because of other than an increase in the village tax rate.

The board would like to assure you that we are sincerely working on your problems and are serving you faithfully so that the trust placed in us will make Mokena a better village to live in. We must all realize that the village facilities must grow with the village. The best and cheapest way to keep pace with this growth is by advance planning and study.

Attend the board meetings. This is your right and privilege. Board meetings are held the first Tuesday of every month.

O. P. Students Visit U of I Campus: Farm

A group of students from Orland Park High school spent Wednesday, January 30, visiting on the campus and farms of the University of Illinois at Urbana. They were able to see the exhibits arranged for Farm and Home Week which was in session. The following students made this trip: Doris Schuldt, Marlene Bartling, Jeannette Kats, Karen Lebens, Janet Townner, Warren Ahnell and Russell Genthner.

The students were accompanied by Mrs. Hilda Geuther, who visited the Champaign High school home economics classes; this was one of the county institute days, held in accordance with the state law.

The Frankfort Motor & Equipment will sponsor an annual family party in the Frankfort school gym, Friday evening, February 15 starting at 8 o'clock, to which everyone is invited. There will be no charge.

There will be entertainment on the stage and screen of outstanding talent which is a rare privilege to see and hear.

On the stage will be a most unusual horse, "Baby Doll" and his master, Texas Tommy. This horse does unbelievable stunts and seems almost human at times. He answers questions with such accuracy that it is amazing. There are many thrill and laugh-packed moments. This team has traveled in Europe and throughout America and recently had appeared on a national television show. "Baby" taps with an educated hoof, answers to simple sums, dances and bows gracefully in response to applause.

Texas Tommy also has trained dogs which endear them to their audience. In addition there will be acrobatic stunts; Rocky Mountain Mary is always pleasing with her songs you like to hear and of course the master of ceremonies, George Johnstone and his wife Betty will keep everything going smoothly and pleasantly all evening. They also have some stunts which will be laugh provoking.

As if this was not enough, on the screen will be two excellent pictures, "Twine Around the World" and an Abbott and Costello comedy. Nuff said. Don't forget this is all free and no sales talks will be given.

Frankfort Motor and Equipment is sponsoring this annual event in cooperation with the International Harvester company

Mrs. William Semmler,
News-Bulletin,
Mokena, Illinois.

Dear Mrs. Semmler:-
Since subscribing to your paper, I have read several letters to the Editor that I thought might better not have been written because of either inconsistent thinking or direct misrepresentation of facts. However, they did not affect me as much as the two letters that were written last week condemning our new board of trustees.

I, for one, feel that we should give credit where credit is due or else we do not have the right to condemn. I definitely do not believe that the new board has been given nearly enough credit for the untold time and effort put in last Christmas when the village water pump broke down. I know how hard the boys worked to get the system back in operation, for which they received absolutely nothing but self-satisfaction.

There also has not been enough said for the grand job that was done in keeping the streets cleaned of snow and icy patches cindered all this winter.

I have a particular distaste for people who do not have the gumption to sign their names to their own thoughts when making statements to the Editor. What can they possibly be afraid of if they are sure that what is being said is true, and if they are not sure, why write at all? It certainly denotes lack of intelligence.

Everybody in the village has the prerogative of going to the village board meetings and finding out, first-hand, what is going on. I know they are welcome because I have been made welcome, as have several other people who have seen fit to take the time to find out how our village is being run. I do not believe it can be stressed too strongly that it is everybody's duty to know the facts before starting vicious rumors.

I hope this letter will be read by everyone who has a personal interest in the village of Mokena.

Sincerely yours,
Kenneth W. Sherwood.

Mokena News-Bulletin:

Since reading the letters under "Readers Viewpoint" in yesterday's News-Bulletin I have been doing a lot of thinking about our Village affairs.

I have before me one of the pamphlets (pictures and all) sent out by the so-called "Peoples Party" before the election last Spring and I notice the "platform" contained the following main "planks":

Safe drinking water-Eternal vigilance in safe guarding the village water supply. (Have you noticed how much better the water tastes?)

Street and Lighting Program-Year Around Maintenance of village streets and lights. (Have you been over 3rd street in the block back of the school house this winter?) (How many lights on Front street have been out for about four weeks now?)

I think it is time for all of us

B'Y SCOUT WEEK

Boy Scout Week, Feb. 6 to 12, marking the 42nd anniversary of the incorporation of the Boy Scouts of America, will see the launching of a three year program known as "Forward on Liberty's Team," a program of action designed to help keep America strong and free.

The Cub Scouts of the Methodist church will present a short sketch on Scouting at the church service Scout Sunday, February 10, and they will lead the prayer for Sunday school that morning.

Mokena Boy Scout Troop 40 now has a total of nineteen Scouts and several others who are candidates and will become members in the near future. It is sponsored by the Civic association with Harley Mann as the Institutions representative. Troop 40 does hereby express their appreciation for any and all assistance given during the past year.

The boys have collected and sold several tons of paper. Money earned in this way is added to their treasury.

The Mokena boys attended the Camporee at Wilmington, Illinois last May and placed first and second in competitive events. They also attended the B. S. Camp at Morris during the summer. The boys enjoy these outings and Mokena Boy Scout attendance has been nearly 100%.

Scoutmaster, Walter Shewski, meets every Monday with the boys at the school. They are kept active working for merit badges and advancements. Boys between the ages of 11 and 15 are invited to join.

There is a very interesting display in the window of the Mokena State Bank which was set up by the boys in honor of Boy Scout Week.

February 4, 1952,
Editor of News-Bulletin,
Mokena, Illinois,

Dear Editor:
Your last issue carried two unsigned letters of a critical nature regarding recent actions of the village board of Mokena. The tone of both of them indicated a sour, frustrated source.

The present board was voted in by a majority of the people. It is a young and vigorous group coming in at a time when this growing community is faced with problems created by some lack of foresight in the past and a desire to plan for future needs. Included in these needs is a sound and recognized system of checking on village accounts, and long over due planning for the sewage and water supply.

As a rank outsider, and you can interpret that to your liking, my observation of their actions convinces me that they deserve nothing but the enthusiastic support of all, including the residents in adjacent areas and the local press. Their cause and actions have nothing but reason to recommend them.

Signed:
Marion Owen

Dear Editor:

Please answer me on this or ask some of the readers to. Why do the tax payers of our fair village, (it used to be fair) have to foot the bill to educate the village board? Correct me if I'm wrong but as I understand it, it has been customary for new board members to check back, ask questions, listen to the proceedings of the experienced members and get the village business pretty well in hand without it costing the village any money.

Now, whoopee, here goes the contents of the village treasury, \$500 to learn.

The \$64 question is: what are they going to use for money after they have acquired this knowledge of how to empty the village treasury?

If they were so ignorant on the subject of village management as it now appears, why didn't they stay put until they learned a few of the answers?

Sincerely,
"Non-quietest"

LIONS BOWLING TOURNAMENT TO BE HELD IN NEW LENOX FEB. 24

Mokena Board Deals With Mail Delivery Truck Complaints

At the Mokena village board meeting Tuesday night, mostly routine work was on the program.

Attorney Schenk sent a copy of a new dog ordinance, which was tabled for revisions.

The board decided to clean the village hall and repair the gutters on the building this spring. As the village clerk has been without a typewriter, Kenneth Sherwood offered to sell a used one that he has, which would take legal size sheets, at a reduced price.

The State Board of Health reported through a letter, that in as much as the old village water pump had recently broken down, a new pump could be installed without a permit from them. They did request that all new pipe be flushed and chlorinated.

The board requested the two lowest bidders on a new pump to report to them on the down draw and total pumping head requirements to enable the board to make final decision on the bids. Edward Hentsch water committee chairman, was requested to secure costs of chlorinator.

People who have moved from the village and being delinquent in their water supply while living in Mokena will be notified by the village attorney; also local residents, delinquent in water payments will be shut off from water after a new notice sent to them.

The resignation of John Scarth which Harold Spiess, president, had read with regrets at a previous meeting, was accepted. The board stated there was three ways in which to fill that vacancy: leave it vacant, hold a special election or the mayor appoint a person to be approved by the board. They decided to do the last.

The vehicle tax money will be kept in a separate fund, 85% of which will go to street and alley work and 15% for police service.

Philip Hacker was issued a permit to build living quarters addition onto his present A. Dina barber shop on Front street.

Milton Geuther appeared as a representative from the Mokena Civic association requesting permission to install four waste baskets on Front street. It was held over for more investigation.

A quite lengthy discussion was had on the condition caused by the mail truck blocking traffic by extending across the street and by driving on the sidewalk. Complaints were also registered with the board that the truck driver damaging a car parked in the vicinity of the post office. In the opinion of the board the ramming of nearby cars was a deliberate act and therefore could not be called an accident.

The space in front of the post office has been marked off for the mail delivery benefit and signs are going to be erected in addition to the marking on the sidewalk. Village attorney was instructed to write a letter to the proper person on this matter.

The village board has been requested by the state engineer to submit their plans for the coming year in regard to street work and also their long range plan in that regard in order to receive help from the fuel tax fund.

In addition to the persons mentioned Kenneth Sherwood, Harley Mann and Berle Needham attended the meeting.

New Lenox Woman Makes Debut as Poet

Leila Baers

It is always pleasant to write success stories and everyone likes to read them. And when we tell about Leila Baers of New Lenox it is a pleasure to join with the people of that village and honor one of their citizens. Indeed everyone in New Lenox is proud of Mrs. Baers because she has written a book of poems and been successful in having it published, and also because she is a kind neighbor, always trying to do something to help others.

To the townspeople this success has come like a sudden flash, but not so to Mrs. Baers, because for the past many years she has been writing poems. Writing them as she had a thought or received an inspiration, and then tucking the poems away in a drawer or box and there letting it rest. It was always a great joy and satisfaction to her to do this kind of writing, not that it did not mean work, effort and a great deal of thinking, for that it surely did; but because she was doing something constructive, even though it was "put under a bushel." Constructive, because she was putting her years of training at high school and college into effect which she timidly hoped was good.

Born in Chicago, Mrs. Baers moved to Manhattan when a child with her parents, the late Harry Hendrixson and Mrs. Clementine Hendrixson, where she enjoyed the farm life of her home there. It was 1920 when the family moved to a farm in New Lenox, just south of the village a short way on the Cedar road. There she lived while attending the Joliet Township High school and Joliet Junior college from which she was graduated in 1925.

Entering the University of Chicago, she majored in English and history, and returned there a few years ago to major in psychology. Indeed, Mrs. Baers plans to return to the university again for more study, as she believes one can always learn something new which is a help in living.

Mrs. Baers dates her interest in writing poetry to her junior college days when she was under the instruction of the late A. Francis Trams. He was most exacting and tried to instill that quality in her. Over and over he would blue pencil phrases and words and the young student would labor to correct it to what Mr. Trams said was right. She loved poetry, as indeed she must have, in order to have written such inspiring thoughts.

Of the book, entitled "The White Tree," Walter Benton, author of "This Is My Beloved," said, "Sincerely, carefully wrought, feminine in tone and idiom. Reassuring rather than disturbing. Mrs. Baers' poems should please many readers."

In reading the book we have found something that will appeal to everyone. They are primarily poems of love—an intense and complex emotion, uniting the sensitive poet to the man of her choice and adding a special color to the other experiences of living. The publishers, The Exposition Press, of New York, believes it is presenting a poet of stature to American readers. The volume as a whole, is the unit, rather than any individual poem, and the full impact of the work is not to be sensed save through the entire collection.

This Friday, February 7 at 10:30 in the morning Mrs. Baers will talk over WJOL, Joliet on the Ducker's social column of the air.

It was the poet's husband, Walter Baer, who gave impetus to the publishing of the poems. Mr. Baers, who is vice president of the Buchen Advertising

company in Chicago, handled the contacts and secured the publishers for the young poet. After this he said, "this is the time now, and you must gather together your material." Therefore the desk drawers were delved into and the poems of many years brought into the light, assembled and sent on their way to the publisher, and on February 1, the finished product, in book form made its appearance.

Of course Mrs. Baers and her family were happy with her book, but being an unassuming person it did not change her gracious manner. Her first duties and joys are, as always, to her family, husband and two children, Silas, 17, a senior at Joliet Township High school and Annis Lee, a junior in the same school. Mr. Baers is acting president of the New Lenox village board.

Mrs. Baers is interested in many crafts and loves good music and books. She makes most of her own clothing. Their home is a remodeled one of the imposing type of earlier period, surrounded with stately trees of long ago, which still serve well in shade and beauty.

We want to join with the citizens of New Lenox who all are gracious in their congratulations to Mrs. Baers and urge her to continue writing poems in this modern form and Mrs. Baers stated that she is so pleased that she lives in such a lovely community.

The New Lenox Drama club was very successful in its presentation of "The Apple of His Eye" to a large audience this past week end. The play which was originally a Broadway production, was very well received.

With the last strains of "Back Home in Indiana" on the Hammond organ, the curtain rose on a typical farm living room. For the next two hours the audience felt as if they were transported to Montgomery County, Ind., to become a part of the farm community so avidly interested in Sam Stover's infatuation for his hired girl.

Each characterization was so sharply portrayed by the cast that as the curtain closed one felt that a visit to the locality would find each still going about his mundane affairs.

The play was directed by Lois Loebe. It is the aim of the group to provide entertainment of equal caliber in the future productions.

Altho affiliated with the Methodist church, membership is not restricted and all members of the community are welcome. Anyone interested in any phase of dramatic work is invited to attend the next meeting at 8 p.m. Friday evening, Feb. 22, in the New Lenox Methodist church parlors.

Smaller Forage Seed Supplies Likely

The general trend toward smaller production of legume and grass seed is likely to continue during 1952, according to a report today from the Illinois College of Agriculture.

Agriculture economist G. L. Jordan and graduate student W. M. Herr say that the 1951 United States production of red clover, alsike, alfalfa, lespedeza, sweet clover and timothy—all six—was 27 percent smaller than for 1950, and about the same as the 1940-49 average.

They feel that smaller production is likely again this year due to the current emergency and resulting economic situation. Emphasis will probably continue on production of food and feed crops, especially if the price of these crops rises faster than the price of forage seeds.

Illinois growers received lower prices in 1951 for red clover, sweet clover, timothy and red-top seed than the 1945-49 average, while prices of alsike and lespedeza were up.

Seasonal price rises from harvest time to sowing time have averaged 50 percent in Illinois for sweet clover, 23 percent for red clover and 42 percent for timothy. These figures apply to the years 1934-50, excluding the war and price control years.

THANK YOU

I wish to express my appreciation for the many lovely cards and gifts that were sent to me during my illness.

MRS. CAMPBELL LIVELY

CARD OF THANKS

I want to extend sincere thanks and appreciation to all who remembered little Wanda with flowers, cards and gifts while she was a patient in the Children's Memorial hospital; and also hearty thanks to those who gave blood for her.

MRS. CARL LEHMAN

John Kalis, who was stricken suddenly in his home with a paralytic stroke Sunday evening, has been removed to the Hazelcrest hospital. His condition is serious. He is the father of Mrs. Warren Ecklund, who recently moved into the Carl Lehman home.

The Camp Tandra Campfire Girls of Tinley Park, are helping in the Heart Fund drive, by making collections from door to door. They are also planning a trip in the near future to points of interest in Chicago.

U. M. T. AND NATIONAL DEFENSE

The Commission on Christian Social Action of the Evangelical and Reformed Church strongly supports the principle of establishing world peace and justice through the United Nations. We believe that it is the responsibility of the United States government to meet its commitments under the United Nations charter, both to deter aggression and to create the conditions which make for a lasting peace. Because of conflict and military threats in the world, the Congress has extended Selective Service legislation to provide manpower for the armed forces. With such a measure we do not, under the present circumstances, quarrel.

In renewing this program, however, the Congress has provided that, subject to its approval of the plans submitted by the National Security Training Commission, there shall be established a permanent system of universal military training and service. Such plans must be acted upon within forty-five days after their submission and may be called up for debate at any time.

Cognizant of our obligation to give expression to the common concerns that affect us as citizens and as Christians, we call attention to the following considerations:

1. There is a distinction to be drawn between the drafting of men for an existing emergency and the adoption of a permanent program of compulsory military service extending into an indefinite future regardless of the international situation or our need of troops.

2. There is a distinction between granting to the military for a limited time, subject to periodic review by Congress and the people, authority to draft men for national defense and giving it control for an indefinite period over the lives of our men.

3. There is an inconsistency

which potentially threatens our national policy to press for the reduction and control of armaments if at the same time we set up conscription as a fixed policy and military indoctrination as a permanent feature of our national life.

4. There is serious question whether there is any military value other than psychological in the military training of millions of young men who might better serve their country thru participation in its normal economic life or in the pursuit of their higher education.

5. There is constant danger that the adoption of universal military training and service would detract our attention, energy and resources from positive efforts for peace—such as the strengthening and support of the United Nations, the expansion of technical assistance and overseas development programs, and the undergoing of human rights at home and abroad.

For these reasons we oppose the adoption by the United States of universal military training and service. We urge the Congress to reject the proposal for implementing this program and to repeal those portions of the national defense act of 1951 which provide for it.

We further urge the people of our churches to consider the issue carefully and by personal interview or letter to express their views to the President of the United States, to the Senate Committee on the Armed Services (Senator Richard B. Russell, chairman), to the House Committee on the Armed Services (Hon. Carl Vinson, chairman), to the senators from their states, and to the representatives from their districts.—Adopted by the Commission on Christian Social Action of the Evangelical and Reformed Church.

Roto Valves

Positive Roto Valves in Massey-Harris tractors consist of a series of coil springs and ball bearings enclosed in a collar and retainer cap assembly on the valve stem. Each time the valve opens, pressure on the bearings causes them to roll, forcing the entire valve to turn. Valves are constantly rotating... eliminating carbon build-up and distortion of the valve seats and stems. The result is equalized wear... clean, tight-fitting valves... and peak engine efficiency with greater power output per gallon regardless of the quality of fuel.

From where I sit... by Joe Marsh
Experienced Hand Wanted
Cappy Miller's back from visiting relatives and tells about a big snow storm that knocked out the electric power for miles around. Naturally, the local power company was doing everything possible to restore service but folks kept calling in and one woman gave them a new twist.
"I don't mind not having lights," she grumbled, "but I've got 20 cows in my barn and they all have to be milked by machine. Nobody around here knows how to milk a cow by hand any more."
From where I sit, it's only too easy to forget how to do something—even as simple as milking a cow—if we don't keep at it. And that goes for practicing tolerance, too. Like forgetting our neighbor has a right to decide for himself whether or not to enjoy a temperate glass of beer. If we don't keep the other fellow's point of view in mind we're all liable to get "snowed under" by intolerance.
